- Spare parts (for platform & engine)

ISRAEL AIR FORCE

The Israel Air Force (IAF) is a central part of the defense establishment in Israel. The IAF's strength is based on operational experience and doctrine which allow routine contributions to Israel's defense.

The IAF provides air supremacy and support for troops, executes special operations and constantly improves itself in order to maintain a legacy of excellence.

The human factor, along with the state-of-the-art equipment developed by the Israel defense industry, enable the IAF to fight and win on the modern battlefield, to withstand sophisticated threats and provide the IDF, and the state of Israel, the gift of clear skies.

ISRAEL MINISTRY OF DEFENSE

INTERNATIONAL DEFENSE COOPERATION

SIBAT is the International Defense Cooperation Directorate within the Israel Ministry of Defense (IMOD). SIBAT maintains in-depth and up-to-date knowledge of the defense world's relevant concepts, as well as a clear understanding of the Israel Defense Forces (IDF) operational needs. Among its services SIBAT conducts the marketing and sales of Israel's entire defense inventory, released by IDF and the IMOD.

SIBAT is a one-stop reference for complete range of combat ready air, sea and land systems, including communications and optronics, all backed by the IMOD. All sales transactions are conducted in strict compliance with IMOD procedures and regulations.

We can offer a total package approach, including on-going after-sale support, spare parts and Integrated Logistic Support (ILS).
